EU's operating ban on Indonesian civil aviation carriers

The EU imposed an operating ban on all Indonesian civil aviation carriers in July 2007. While safety concerns are of paramount importance to all, we are also concerned about the effects of the EU ban on overall relations with Indonesia.

Has the EU offered Indonesia a solution to the current situation? In particular, have the Commission and the Member States elaborated a concrete and time-bound work plan to address the issues together with our Indonesian partners?

How can we pro-actively engage ourselves in this matter? It is of prime importance to nurture our relations with Indonesia, which have greatly progressed over the past years.
